

Where should your puppy be?

FREE

# HOUSE TRAINING FLOW-CHART

THIS CHART WAS INSPIRED BY FLYNDOGSPORTS.com

Did your puppy just wake up?

Playing for 20-30 minutes?

Has your puppy recently eaten?

Taken a drink in the last 5 minutes?

Wandering around sniffing a lot?

Has puppy pooped since last meal?

Is your puppy a double pooper?

## Take your puppy outside

\*Using a crate to teach your puppy how to hold their bladder will speed up this process

\*Ensure to purchase and clean up with a canine urine enzyme remover

\*DO NOT USE PEE PADS as they confuse your puppy and will slow down results

Did they go potty when they were outside?

Crate, pen or tether your puppy & try later

Your puppy is likely safe to play inside with supervision
